ARTIFICIAL EYES.—The profession of oculists is older than would be imagined. It has its legends, its traditions, and its history. The ancients made artificial eyes, and it was in Egypt, we think, that the manufacture originated. The first eyes were made of gold and silver, then copper and ivory were had recourse to. It is related that at a period of general distress two citizens of Latium carried their artificial eyes to the treasury, the same way that the French women offered their trinkets as "patriotic gifts" during the first revolution. It is to be hoped that these eyes were of the precious metals. Artificial eyes were no doubt rarities during the middle ages, but became common enough after the invention of porcelain eyes in the sixteenth century.—There were certain drawbacks connected with these in later times. The makers, with a view to business, used to insert their names and addresses in the white sufficiently distinct to be deciphered by any one who stared the wearer in the face. We have before us an eye of this character, on which we read in blue letters on a white ground, "W. Johnson, Dublin, Ireland."—It was in the eighteenth century that the era of glass eyes commenced. They had the advantage of being light, and consequently less fatiguing to wear, and were full of brilliancy. Now a days hardly any but enamel eyes are made—enamel being after all but a species of glass. These last for a year at the most. Some the best among them look so real that the makers of them conceive quite a passion for their productions, like the sculptor of old, who became enamored of his marble nymph.—They pretend even to surpass nature, and their enthusiasm carries them so far that lately one of the craft, when his principal customer, whose sole natural eye squinted frightfully, reproached him with not being able to make him look straight in front of him, calmly proposed to cure the defect by making him a duplicate artificial eye to replace the living visual organ.—*Exchange.*

A POOR MILLINER RECEIVES AN IMMENSE LEGACY.—Fort Edward, N. Y., is thoroughly excited over a story romantic throughout, and one which aptly illustrates the passing strangeness of human events. Miss Ellen Gray, a young woman, a milliner and dressmaker, resides in the town of Fort Edward. Having a few years since formed the acquaintance of a young man, an Englishman, (name not given,) they subsequently became "engaged." His relatives resided in England, whither he repaired, and became the fortunate possessor of immense wealth by the death of a blood relation.—Corresponding regularly with his betrothed, living across the briny sea, he expected to return there at a certain day and make her his wife. He died about two years since, before consummating his wishes, when he left his wealth, (it is put down at $19,000,000) to the Fort Edward lady. This will was contested, but the validity was fully established. Word was sent to Miss Gray that the money awaited her pleasure, and it is generally understood she will leave this week for "Hold Hengland," to accuse her unexpected prize. The Sandy Hill *Herald* says:—"From the many conflicting stories afloat in regard to this matter, the foregoing is about as correct a version of the affair as we can glean. We cannot vouch for its authenticity, but there seems to be no doubt that it is in the main correct, and that a very large amount of money has actually been bequeathed to the lady in question."

The audicity with which our privileged classes—Congressional representatives and department officers—contrive and presume to rob the Government, is perfectly astounding. There are but few members of the Senate or House of Representatives belonging to the party in power but have, on various pretexts, managed to have their expenses paid during the recess by the Government. This is accomplished by means of committees, for whom excursions of investigation are arranged, with the connivance of the departments, upon the most absurd and nonsensical grounds. The last grand thieving operation of this kind is to come off at the hands of the Naval Committee of the House, in the shape of a summer tour through the great lakes, and for which they have been assigned the revenue cutter Michigan, at Government expense. The pretext given for this fraud is the investigation of the enforcement of the revenue laws along the Canadian coast, an affair they have no more to do with than they have with the Patent Office. It is high time the Administration was held to a strict and severe account for these unwarranted and expensive favors extended to the privileged classes.—*N. O. Times.*

THE KNIGHTS OF ST. CRISPIN.—The most powerful trades organization in New York City is the above—of men working at the shoe business. Their growth has been rapid, and now includes the greater portion of the shoemakers of the city and vicinity. The first lodge was the "Team" Shoemakers, organized eighteen months ago. Since then the organization has spread rapidly, five lodges being now in existence, numbering several thousand members. One lodge is of German and one of Frenchmen. The members are bound by oath to adhere to the rules, and not to divulge the secrets. The strength of this union may be inferred from the fact that at the time the first lodge was instituted the shoemakers were earning low wages and working long hours, while, today, they are receiving good pay and working not more than ten hours. Demands for increased pay are promptly acceded to by those whose establishments are under the control of their journeymen as far as relates to the question of wages.—*N. Y. Tribune.*

THAT SAGACIOUS DOG AGAIN.—A schooner hailing from Clayton, now in port, has, to complete its complement, a huge Newfoundland dog, belonging to the captain, which has sailed with his master for the last six years. During a storm, he mounts the cabin and exhibits the utmost pleasure in watching the tumbling whitecaps as they dash around the vessel, and when the men are making sail, the canine will seize the rope and endeavor to bear a hand. He has twice been lost overboard, once off Cleveland, when he swam two miles into port, remained a stray dog for a month, and was found by the captain on the dock when next he visited that place. The crew have taught him various tricks, one of which is to ring the fog bell, which he will do with as much regularity as any man; he will also with his paws and teeth tie what is called the "hard knot," and will hold the painter of the small boat alongside for an hour at a time.—*Detroit Free Press.*

[Correspondence Boston Journal.]

ONE OF LIFE'S CONTRASTS.

Three years ago, while breakfasting at a mining restaurant near the Oregon line, a stranger with uncombed hair, huge gray whiskers and tattered coat, took his seat at the table. By accident, I was relating to the landlord an incident which had occurred some years previously in the Connecticut Valley. After I had left the table, and was walking along, the unshorn stranger accosted me. "You are the first man," said he, 'whom I have heard mention my native town for twenty-three years, and it made my heart come up into my mouth when you did so.' This circumstance doubtless made him unusually communicative. He said he was living in the mountains, ten miles from any habitation, subsisting by hunting, and visiting the settlements two to three times a year. This statement was afterwards corroborated by other evidence. What induced him to lead this hermit life, he did not see fit to explain. In his early boyhood, on the banks of the Connecticut, he and the present Chief Justice of the United States lived on adjacent farms, and attended the same public school. What a sharp contrast has marked their subsequent lives—the one having filled the most responsible stations in the gift of the American people—the other a hermit, unknowing and unknown, amid the wild and most inaccessible fastnesses of Southern Oregon!

ATTEMPTED ESCAPE OF JOHN M. YERGER. Advices from Jackson, Miss., dated August 11, state an attempt was made by Col. Yerger, who was recently tried by court-martial for the killing of Major Crane, to effect his escape from the guardhouse on the evening of the 10th. The following is the account given:

"By some means, as yet unexplained, he had obtained possession of a key with which he could unlock his manacles. His handcuffs have, for the last week or more, been removed by day, and only fastened on at night. Yesterday the guard, who was stationed inside, noticed Yerger, while mounted on a box which served for a washstand, and on the top of which he occasionally mounts to look through his grating, in the act of concealing a key in a crevice about the grating. Finding that he was detected, he admitted to the sentinel that it was a key with which he could unfasten his manacles. He further stated, so says the guard when he obtained his confidence by professed sympathy, that he expected other keys from which he should be able to obtain one that would unlock his handcuffs, and if the guard should return the other keys to Mr. Yerger he should be well paid. When the discovery was reported to the officer of the guard Yerger said Mrs. Yerger had furnished him with the key. To day, in the presence of Mrs. Yerger, he denied it, and denied having said so. From various circumstances, it is believed Mrs. Yerger was utterly ignorant of his possessing the key. The probability is that a bribe obtained it from one of the guards, or, as Yerger has since stated, that he obtained it from a prisoner who swept out his cell, on a promise of five dollars in the event of his escape. The matter is yet surrounded with some mystery."

BASE BALL.

The following colloquy took place between an enthusiastic admirer and player of the game of base ball, and a gentlemen whose regard for his personal comfort led him to eschew such unruly sports, as he termed them.

"What is the matter with your finger?"

"Struck with a ball, and drove up" was the reply; "but it is a noble game."

"Precisely. And your thumb—it is useless, it is not?"

"Yes, struck with a ball, and broken."

"That finger joint?"

"Yes, a ball struck it. No better game to improve a man's physical condition—strengthens one's sinews."

"You walk lame; that foot, isn't it?"

"No; it's the—the—the—the—well, a bat flew out of a player's hand, and hit my knee pan. He had the innings."

"One of your front teeth is gone?"

"Knocked out by a ball, an accident?"

"Your right hand and your nose have been peeled—how's that?"

"Slipped down at running—but only a mere scratch."

"And you like this kind of fun?"

"Glory in it! It's a healthy game!"

AN ETHIOPIAN SAMSON.—A colored deck hand gave an exhibition of his strength the other day in Detroit. Several men were putting forth their united efforts to lift on end a hogshead of sugar in the Michigan Central freight depot, when he bade them get out of the way, and with no great apparent effort grasped the chimes and turned up the huge weight. Something being said in regard to his strength, he then took a keg of nails and held it out at arms' length, grasping the chimes at either end. With one hand he seized and moved a dray several feet, and with both hands carried it completely around. A box of tin, about as much as an ordinary man can carry, he held at full length about his head, and shouldered a barrel of flour as easily as a boy could shoulder a small stick of wood.

Mr. J. J. Josephs, a native of Charleston, S. C., but for the last twenty-one years a resident of San Francisco, proposes to furnish Chinese laborers to planters and farmers on more advantageous terms than have been offered yet; that is, he will engage to deliver them to any port on the coast free of cost to planters—they having nothing to pay until they have received their services. The advantage of this plan over Koopmanschap's is this: The latter requires the payment of money in advance, while Mr. Josephs does not require money from the planter, he receiving his pay from the emigrants themselves out of their wages, &c. Those he will send will be free citizens of China—not the worthless vagabonds of the country.

Goethe was in company with a mother and daughter, when the latter, being reproved for something, blushed and burst into tears. He said to the mother: "How beautiful your reproach has made your daughter. That crimson hue and those silvery tears become her much better that any ornament of gold or pearls; those may be hung on the neck of any woman; those are never seen connected with moral purity. A full blown flower sprinkled with purest hue is not so beatiful as this child blushing beneath her parent's displeasure, and shedding tears of sorrow for her fault. A blush is the sign which nature hangs out to show where chastity and honor dwell."

DOTY'S WASHING MACHINE,

LATELY MUCH IMPROVED,

AND THE NEW

UNIVERSAL CLOTHES WRINGER

Improved with Rowell's Patent Double Cog-wheels, and the Patent Stop, are now unquestionably far superior to any apparatus for washing clothes ever invented, and will save their cost twice a year, by saving labor and clothes.

Those who have used them give testimony as follows:

"We like our machine much; could not be persuaded to do without it, and with the aid of Doty, we feel that we are masters of the position."—*Rev. L. Scott, Bishop M. E. Church.*

"It is worth one dollar a week in any family."—*N. Y. Tribune.*

"In the laundry of my house there is a perpetual thanksgiving on Mondays for the invention."—*Rev. Theodore L. Cuyler.*

"I heartily commend it to economists of time, money, and contentment."—*Rev. Dr. Bellows.*

"Every week has given it a stronger hold upon the affections of the inmates of the laundry."—*N. Y. Observer.*

"Friend Doty—Your last improvement of your Washing Machine is a complete success. I assure you 'our machine,' after a year's use, is thought more of to-day than ever, and would not be parted with under any circumstances."—*Solon Robinson.*

"Your Washing Machine has been in daily use in our laundry, and the housekeeper expresses herself as highly pleased with it. It certainly accomplishes a greater amount of work, with less labor, and does not wear the clothes near so much as the old fashioned wash-board. By using it one laundress is dispensed with."—*Wm. M. F. Round, Superintendent of Infant Department of St. Catherine's Nursery, N. Y. City.*

PRICES.—A Fair Offer.

Send the retail price Washer $14, Extra Wringer $9, and we will forward either or both machines, free of freight, to places where no one is selling; and so sure are they we will be liked, that we agree to refund the money if any one wishes to return the machines, free of freight, after a month's trial, according to directions.

No husband, father or brother should permit the drudgery of washing with the hands, fifty-two days in the year, when it can be done better, more expeditiously, with less labor, and no injury to the garments, by a Doty Clothes Washer, and a Universal Wringer.

Canvassers with exclusive right of sale make money fast selling them.

Sold by dealers generally, to whom liberal discounts are made.

Valuable Property for Sale in Raleigh and Wake County.

PURSUANT to a decree of the Court of Equity for this County, I, as Commissioner, will sell at the Court House, to the highest bidder, all of the Real Estate of the late Sarah Stronach, dec'd, to wit

One House and Lot, in the City of Raleigh, containing two acres, more or less; said house in fair condition, has six rooms and good basement. On the Lot there is a very fine Well of Water and all necessary out-houses. The fences are nearly all of new and sound timber, and the soil in fine condition. There are quite a number of Shade and Fruit Trees on the premises. Also a Lot containing three-fourths of an acre, more or less, near the above mentioned one. Both Lots are on Hargett street, just beyond the city Cemetery, and on the direct road to the "State Fair Grounds." Also a Tract of Land about five miles from the City, which is very well timbered, and adjoins the lands of W. E. Pierce and others.

This property will be sold on the 28th day of August A. D. 1869.

Terms made known on day of sale.

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

THURSDAY, AUGUST 19, 1869.

ACCUMULATION OF CALAMITY.

In 1847 the tax on the $100 worth of land in Wake county was 25 cents, on the poll it was 70 cents.

In 1855, on land 28 cents, on the poll 85 cents.

In 1860, 35 cents on poll and 71 cents on land.

In 1850, when Wm. H. High was elected Sheriff, he collected, for county and State purposes, about $14,000, some times he received four and some times five per cent for collecting.

Under the march of the new civilization and carpet bag domination, Tim Lee, the Sheriff will collect from the people of Wake, eighty-two thousand, three hundred and four dollars and ten cents, ($82,304.10)—The tax on the $100 valuation of land is now $1,16 7-12, poll tax $2,08. Wake county pays more tax this year than was paid by the whole State in any one year, from the formation of the government up to the year 1841. Sheriff High would receive, for collecting, sometimes $560, and sometimes $700. Sheriff Lee will receive $4,115,20, more than twice as much as a Judge of the Superior Court used to receive in the honest and better days of the Republic. Next to war, unnecessary and burdensome taxation is the greatest calamity that can befall a people. This immense debt was not the result of the war, the war debt was repudiated. This debt was created by carpet bag and scallawag corruption, fraud and baseness. Governor Holden and the carpet baggers say we have a better system of liberty and government than we ever enjoyed before.

The people are fast finding out that under reconstruction, the leagues and the sword, we were forced to choose for our teachers men who cannot, themselves, be taught. Men from whom we can learn nothing but their own imbecility and corruption.

Wall Street brokers, with Milton Littlefield to corrupt and buy up the Legislature, have put this heavy debt upon us. Governor Holden and the State officials sit silent and connive at it all.

The Governor was the father of the University Road; he did all he could to procure its passage through the Legislature. He made his son, Joe, and his brother Directors of the Road. Then, Holden like, he would not issue the bonds as his own law directed. He required the corporators of the Road to take out a mandamus to compel the Governor and Treasurer to issue the bonds. He now finds the people on the verge of bankruptcy and ruin and will say "I told you so," and declare that he never favored this wild scheme of building railroads with State bonds which were only worth thirty cents in the dollar.

A people who will follow Gov. Holden can't prosper, nor do they deserve to prosper. Ultimate ruin has followed all his projects and plans. Secession was his darling object and delight for twenty years. It ceased to pay and he ceased to advocate it. He signed the ordinance of secession and sang hallelujah over the "prospects of the fight." When the Federals took the Capital he said he "signed the ordinance with an aching heart." He illuminated his house, set out his wine, and drank rejoicingly with his conquerors.

At the late session of the Legislature, when Wall Street brokers, through Littlefield, were, by means of whisky and presents, corruptly chartering railroads through out the State, Gov. Holden was for it.—To-day he refuses to issue bonds, and to-morrow will be ready to declare that such a system of railroad improvement is ultimate bankruptcy to the State.

OBEYS THE ORDER.

General Laflin, half drunk in the city of New York, was heard to say, he had as much influence in North Carolina as if he were Governor.

Laflin charged Governor Holden not to issue a writ of election for Pitt; that Rich and himself were the only men who could control the negroes of that County; Rich was dead and he was afraid to go to the County. The Governor obeyed the order. No writ of election has yet been issued.

Senator Rich, of New Hampshire, representing Pitt County, died Monday, the 15th of February. The Legislature adjourned the 12th day of April. The Governor, because a worthless carpet bagger wished it, deprives the people of Pitt of a representative for near two months.

Senator Wynne died April 7th. The Governor issued a writ of election and that vacancy has been filled by Gen. Phil. Hawkins, the candidate of the Governor and the Ring.

When will Laflin be ready for the election in Pitt?

Can the Governor explain why no election is ordered in Pitt?

GIVING WAY.

Col. Jo. B. McMurry, of Alamance, who has been the head and front of Radicalism in that county, has recently renounced Radicalism. We know the Colonel feels better.

PLAIN TALK.

Under the above caption the Newbern *Times* gives the *Standard* and its co-ers a pretty *feeling* castigation. We quote the following to show the estimation in which the *Times* holds the self exalted conclave which arrogates to itself the power, as in former times, to "kill and make alive."

"While we intend to be courteous, we do not intend that papers published in our State ostensibly for its interest, but really in the interest of a corrupt ring, composed of citizens of our State, together with roving persons who, like buzzards, alight where they can grab a morsel, shall dictate to us what we shall, or shall not do. The Raleigh *Standard* of late, has contained many threats of driving papers and people to the wall *who dare oppose Governor Holden*. They do not meet any argument put forth, but "like a bird, hard, flutter." They switch off the track and attempt to silence those who dare speak the truth, by mean insinuations and abuse, too degrading and contemptible to come from the mouth of a gentleman.

We have treated Gov. Holden in no other than a gentlemanly manner (except it be that the Raleigh *Standard* is Gov. Holden, as the managers of the *Standard* have a remarkable faculty of changing criticisms on the *Standard* as assaults upon Gov. Holden) and shall support and defend him while he acts in the interests of our State, and honorably discharges his public duties. He has a right to his opinion. We claim the same right to ourselves. It is the right of every American citizen to criticise the acts of public servants, believing as we do that public officers are our servants, and not our masters. They should conform to the general wishes of the majority. We are known Republicans, notwithstanding the attempts of the "ring organ" to read us out of the Republican party; we advocate *true* Republican principles, and are endorsed by *all true* Republicans, and as such, we defend them. We will not defend men who, under the cloak of Republicanism, are apparently engaged in *Bribery and Corruption*. We will not defend men engaged in wrong doing because they are Republicans. If Republicans are corrupt, and depart from the path of truth and justice, they can expect *no aid from us*. We admit that a *professed Republican* has reported us as not true to the party, because we had the manliness to oppose him in conduct considered disgraceful *by true* Republicans. If the *Standard* seeks information from such persons, let them make it known. It is believed that there are such men, who, at the same time, profess to be the leaders and "organ" of the Republican party. If the Republican party has got to carry such loads upon its shoulders it will soon loose its popularity."

How is This?—A correspondent of Charlotte writes us as follows:

Mr. Josiah Turner:—At our Township election on the 5th inst., one J. T. Harris from Franklin county, *so said*, presented himself at the ballot box to vote, he having registered only two days before. Being a stranger at the box, as his vote was handed in,—some one challenged the vote. Whereupon, he was asked if he was a citizen of Charlotte. His reply was, "yes." He was then asked if he was not a member of the Legislature; he said he was. The question was then asked him, if he expected to return and represent the county in the next Legislature; he replied "yes,"—then his vote was rejected. It is said Harris, we understand to be a Colonel of Holden's *outfit*. Who is this man Harris? and if a member of the Legislature of Franklin county, had her citizens not better be looking after him? And perhaps it would be as well that Holden should appoint a new Colonel of his *outfit*, for fear a disturbance of the peace might take place in Franklin and he have no gallant commander there to lead his brave troops to the charge.

CIVIS.

This can't be our Harris, the man who offered to fight General Estes at any time and in any way. We take it, some person has assumed the name of "Harris" and offered to vote with a view of injuring the Colonel. We hope the practical joker will be found out and properly punished.

It is no violation of the criminal law to call one's self "Harris," and therefore this bold man cannot be indicted. We hope *our* Col. Harris, (of Franklin,) will find out the rascal who has assumed his name and chastise him as he proposed to chastise Estes.

BIG BLUE AND LITTLE FLIES.

Nature is said to descend to infinite smallness. Gov. Holden has his parasites. "If you take (says Sydney Smith) a large buzzing blue bottle fly and look at it in a microscope you will see a number of dirty little insects crawling about it, which doubtless think their fly to be the bluest, grandest, and most important fly in the universe, and are convinced that the world would be at an end if it ceased to buzz." The *Standard* has thrown the Newbern *Times* off of the Big Blue's wing, and thinks the *Times* must perish if it can't rest on, and hear the buzzing of, the King Fly.

The following from the Newbern *Times* is significant. What is so much money required for? Can honest men afford to pay such high prices for office?

The Raleigh *Standard, alias Pusher to the Wall*, says, "the *Times*, and those connected with it, have never done the Republican party any service, but have been mere parasites."

Wonder what the writer of the above abuse thought during the Autumn of 1868, when he was guzzling champagne in Raleigh, at the expense of the funds in the hands of the Republican Executive Committee, and perhaps paid for with part of the sixteen hundred dollars *paid* by the owner of the *Times* (as shown by his own private cash book) during the past campaign, for political purposes, and that too by the gentleman whom the Raleigh *Standard* says "professed just faith enough to enable him to keep the office which he held under the Government." Can the *Standard* with truth say that they contributed as much, or can their powerful flouat of information in this city say with truth that *they paid* even that which they subscribed for—The *Standard* is a pretty thing to be talking about parasites.—*Newbern Times*.

The Macon (Ga.) *Telegraph* learns from a gentleman from Eufaula that the stalks, bolls, and squares, in the drag acre of cotton belonging to Mr. L. F. Johnston, near Eufaula; had been counted within the last day or two, and that by a close mathematical calculation the acre will yield at least five, and probably eight, 450 pound bales of cotton. Old and experienced, planters who were present and examined the cotton stalks said that the acre would certainly yield five bales, and with favorable weather and close picking seven bales would probably be obtained. This is a most fabulous-sounding statement, but we are assured that it is true.

For the Sentinel.

Mr. Editor:—The rambling letter leaves your correspondent in Oxford, long distinguished for the loveliness of its fair daughters, the refinement, intelligence and hospitality of its citizens, and as being the most beautiful inland town in the State.

'Tis Court week. Judge Watts presides, but with evident dissatisfaction to himself and others interested in the proceedings, by reason of the dense crowd, heat and scalawag odor.

On Tuesday there were more persons in attendance than for many years, at least four-fifths of whom were colored, and most of them seemed to have business in Court.

Melons, cider and "gungers," were in great demand at remunerative prices. Good order prevailed, but few persons were seen under the influence of "tangle leg," while many kept time, all day and until late at night, to the banjo, which could be heard but not seen, for the crowd who participated in the dance.

Many old and distinguished citizens were present, discussing the sad effects of the drought, barn burning, stealing, changed circumstances of each other, high taxes and the demoralization of society. Many thought a half crop could not be made, and a majority thought it impossible to pay their taxes.

The distinguished Representative from Granville, "Coffee Mayo," was up on a charge of stealing a pistol, and, contrary to the impression of many who heard the testimony and the able speech of Gen. Cox, the State Solicitor, he was acquitted.

One of the most conspicuous persons we saw was your former citizen "Hughes," the Barber, who has a shop in the Old Hotel, is School Commissioner elect, and whom it was said would be sent to the Legislature to fill the first vacancy that occurs.

Dr. Sam'l Williams, of the Oxford Hotel, assisted by his amiable and accomplished wife, and very attentive servants, did all in their power to contribute to the comfort and pleasure of their guests. The fare was most excellent, and charges moderate.

The ladies of the Presbyterian Church, ever ready to testify their love for the cause of Christ, and the comfort of their order Shepherd, have held an entertainment every night during my stay, which deserved, as it received, a liberal patronage.

I visited Mr. James H. Horner, that prince of instructors of youth, and found his school full to repletion, and a more lovely family, and orderly and interesting collection of students I never met with. The system adopted by Mr. Horner makes his students thorough in their studies, and enables them to occupy the most distinguished position in our Colleges, or in the various walks of life. I did not have time to visit St. John's College, but learned that, under the superintendence of the Rev. W. Marsh and his very accomplished assistants, that it was well supported, and that an increased number of young ladies were in attendance.

The stores were large—filled with attractive goods, and all the merchants seemed busy and anxious to sell good bargains; but by far the most polite and energetic persons in attendance were the solicitors for the several Life Insurance Companies advertised in your paper and the "Standard." Each deeply concerned for the welfare of widows and orphans, urging fathers and brothers to secure a policy for the benefit of their heirs. Each contending that their respective distinctive features were the best, their rates lower, and the investment safer. So far as we could see or hear your popular fellow citizen, P. P. Pescud, Esq., the General Agent of the "National Life Insurance Co. U. S. A.," was the most successful in telling stories and anecdotes illustrating the benefit of Life Insurance, and in interesting and amusing the many friends and acquaintances he found here. He kept Drs. Young and Taylor busy making medical examinations and carried home with him about a dozen applications, and many promised to apply to him this Fall. Mr. P. mentioned some remarkable facts to prove the great and growing popularity of "The National." It was organized 23d of August, 1868; has established agencies throughout the United States and Canada's; has issued 6,848 Policies, covering over $18,000,000 and has had but 4 deaths.—He says it is drawing to its support the ablest and most distinguished financiers and citizens. Mr. P. having forwarded nearly two hundred applications from his office since January last. He also mentioned that the "National" having very wisely concluded to remove all restriction to travel or residence, will now be able to issue policies in the Eastern part of our State, where our citizens have heretofore been deprived of its benefit because of the extra rate charged those exposed to malarious influences.

It was thought that the whole of this week would be occupied with the State docket, and that the civil docket would be reached by Monday of next week.

On the high lands the crop of corn along the road seemed past recovery, by reason of the protracted drought. The tobacco looked green and the cotton had not suffered seriously. The loss of the corn crop and the lost trade sustained by the closing of the Tobacco Factories the past spring and during this summer, will make money very tight, and produce general distress. Last year nearly all the tobacco raised in Granville was bought by the Manufactories in that county, and at better prices than could be secured in Richmond, Va., but this year only three or four factories are in operation, and the tobacco is shipped to Richmond.—You may hear from me again on the road to the mountains.

[From the New York Herald.]

GEN. GRANT'S AMBITION.

General Grant, not long before he entered the White House, said he would rather be the Mayor of Galena, the town of his former residence, than be President—meaning, as we suppose, that his highest ambition was to be useful even in a comparatively limited sphere. We give him due credit for that, believing he is patriotic and desirous of doing the best he can for the welfare of the people. This expression shows, too, that he had an humble opinion of himself. While we can admire his modesty, we think he under-estimated his ability.—As a military man he showed great capacity—showed, in fact, that his mind developed according to the exigencies of the service, and that it was equal to the most trying circumstances. If he would lift himself out of the mire of party politics and the trammels of the party politicians that surround him he might become as distinguished in his present high office as he was in the war. Though he might not have desired the Presidency, and may not want to have it another term, his ambition to be useful may be gratified far more in his present position than if he were Mayor of Galena. Will the President, as he intended when he first entered upon his duties, emancipate himself from the schemes of party politicians and adapt his policy to the conservative sentiment of the country? The reign of radicalism was an abnormal condition of things. It cannot endure. If General Grant be wise, he will see this, and pursue a course in consonance with public opinion and the interests of the country.

The town of Sutton, N. Y., boasts of a woman who was married at twelve years of age, is now the mother of sixteen children, forty years old, and weighs 210 pounds.

For the Sentinel.

Montgomery Co., N. C., Aug. 9th, 1869.

Mr. Editor:—I cannot avoid the temptation of giving you a description of some of the scenes which occurred at our election for township officers on last Thursday, in Zion District, Montgomery Co: It had been said by one of the leading rads, that the Conservatives had great "impudence" in bringing out candidates; but the sequel shows that the Conservatives not only had the "impudence" to nominate their candidates, but really had the "impudence" of electing their whole ticket, excepting our Magistrate, and he was only one vote behind. Well, to begin—early on Thursday morning, it is said, directly after sunrise, the leading Rads and their candidates assembled and went to work on the negroes and doubtful scallawags as they arrived, with a zeal worthy of a better cause.

The Conservatives came up rather late, not supposing their opponents to be such early risers, but seeing the zeal and industry of the Rads, they were stimulated to go to work in earnest, and the result showed how effectually the work was done. The Rads had boasted in the morning that they could tell their precise majority, knowing how every voter would cast his vote; but prescience proved very defective. After a considerable crowd had assembled, I heard loud voices in a little squad not far off and walked up to see what was up; and found that the old man Johnny B., Radical candidate for school committee, had circulated a report that one of the candidates for magistrate had signed a certain agreement, made by citizens in the neighborhood, that they would not employ any negro of bad character, and especially one named "Green"; mind you now, Green was the negro to whom the old man Johnny B. gave his information; the Conservative called up James A., who had the agreement in charge, to testify how the matter was; who stated that the Conservative had never seen the paper in question, but that the old man Johnny B. signed the paper, and remarked that he did so cheerfully. This came like a thunderbolt on old Johnny B. and he turned pale, and his knees began to shake like Belshazzar, for there was Green listening to the facts; finally the old man stammered out after two or three trials—you are a liar! About this time, B., provisional magistrate, and son of the said Johnny B., came up and threatened to arrest James A., and said nothing to his daddy, who was making *all the fuss*. And Billy B. threatened on several other occasions to arrest James A. and no one could tell for what, unless it was to show his vindictive feelings, and a little authority.—There was a Rad in the crowd who bawled out that the Conservatives had come for a fuss, and they could have one if they wanted it—this gentleman has a very red head, and is a terrible scalawag, and is noted for his flippant tongue. He threw out some insinuations to Burrel W., who is one of the most peaceable and quiet men we have in the community—who retorted to the red-headed gentleman,—he had never had his house searched *for stolen wheat*, as he had. This made the red headed man furious, but Burrell W. remarked further, that he had a certain negro named "Spencer," who had lived with him two years, and whom he had never caught in a lie, and who told him that you (red head) did try to get him to steal Mr. B.'s wheat for you, and remarked that, "I can tell you of *something else* if you *wish to hear it*. The red headed man did not want to hear any more, and he sloped off, and was quite peaceable afterwards. A leading Rad stated that the "leaguers" were not sworn, and two witnesses, one black and the other white, were called up, and proved otherwise. The Conservatives then became buoyant, from the fact, that the Rads began to slacken, for disappointment was visible upon their countenances, for they had seen ten or a dozen negroes walk up to the polls and vote with the Conservatives. Billy Z., a Radical candidate—had said a few days before that all b—ll couldn't beat the Rads; but Billy Z.'s countenance began to change whilst the votes were being counted, and the little boys began to jeer him. The old man, Johnny B., (as aforesaid,) walked to the polls and cast the first vote, and remarked that he wanted to "head" the Republican ticket, and beat out the Conservative; but the sequel proved he became the "tail" in the evening. "Pity the sorrows of a poor old man." I could give you another item, but suppose I have given a fair sample already. The Radicals evidently "intended" to browbeat the Conservatives, and it was noticed that a good many of the deluded negroes had clubs, and after the first quarrel, others went off and got clubs, but the numbers of the Conservatives and their determined course seemed to appall them. They have been effectually routed in this the first effort of the Conservatives, since the war, who have been depressed and heartless heretofore; and suffered these demagogues to rule over them in the most tyrannical despotism—but we have seen what a little effort can do, and will profit by it, in the future. The Rads had circulated all kinds of false reports, that the Conservatives were against the Homestead, and in favor of turning loose the execution law, that the Conservatives were holding secret meetings, for the purpose of getting the negro back into slavery again—and telling the negro that their party freed them &c., &c: How long shall such a party rule this country?

A VOTER.

About 30,000 Chinese, now in Peru, have united in sending a petition to the Chinese Emperor, through the United States consuls in Peru and Pekin, asking for relief.—They allege that they have to work day and night, in all weather, at scanty wages, which are doled out to them very sparingly. They are weak for want of food; they are beaten and loaded with abuse; a *cangue* is put around their necks, and they are driven to work and compelled to dig and plow when suffering hunger and cold. If they complain, their sufferings are only increased; if they work in shops they are unjustly accused of thieving; if the walk the streets, the boys ridicule and abuse them. On all sides they are persecuted and driven to despair. Steps have been taken to inquire into the truth of their story.

An English Discovery.—Professor Winlock, of Harvard College, was in Louisville, Ky., on Wednesday, and is bringing back the results of his observations on the eclipse. The *Courier* says:

"His most remarkable discovery, however, appears those of Janssen in India, is the presence of an ocean of magnesium in the sun. Of the six new lines discovered by him, four are magnesium. It is therefore unnecessary for any earth-born mortal to claim that he discovered the power that magnesium possesses for making a brilliant light. Of the five lines known before the discovery of the six new ones by Professor Winlock, four are known to be hydrogen. The constitution of the other is unknown."

Another curious fact seems to be settled now; it is that the corona of the sun and the aurora borealis are identical in constitution.

Over one-half of the two million dollars of the capital necessary, for a line of twelve iron screw propellers between New Orleans and Liverpool has been subscribed in England.

And $5,000 ready to pay a loss of No. 34,161, so soon as the party authorized to receive the money appears.

The Company has been well tested throughout the State, as to its promptness in paying her losses, reliability, &c.

DIVIDENDS PAID AT THE END OF THE FIRST YEAR, AND ANNUALLY THEREAFTER.

Its ratio of expense to income is extremely low. This may be seen by reference to the Official Reports for 1868. For example:

EXPENSE ON THE $100 RECEIVED.

Knickerbocker,	$16,54
Equitable,	17,44
North America,	21,16
Brooklyn,	21,09
Universal,	27,34
John Hancock,	18,27
The National,	63,48
The Ætna,	13,41

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868, than any other Company, except one. It insured more Policies in the United States that any other save one. It insured more lives in Canada than any other Company, British or American.

See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fulness and purity, from this excellent, powerful, and flourishing Company, the Ætna Life, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago in 1861, it issued only 589 policies, received an income of seventy-eight thousand dollars, and possessed nett assets amounting up to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 13,327 new policies, more than any other Company except the Mutual Life; received an income exceeding six million dollars, and had amassed solid, securely and profitably invested nett assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."

THE weather at Raleigh, N. C., as indicated by the Thermometer at the office of the North Carolina Land Company, Tucker Hall, Wednesday, August 18th:

9 A. M., 80. 3 P. M., 88.
12 M., 88.

We would direct the reader's special attention to the new advertisement of the Ætna Life Insurance Company—W. H. Crow, Esq., Agent.

ROBERT B. ANDREWS is missed at the loyal bachelor's table at Blair's. Mr. Andrews has gone North for his fall stock of ready made clothing. He has many of his goods made to order, and hence his early departure. His business is steadily increasing, because he is so well and favorably known, and because of his fair and reasonable prices. Those who desire good clothes, well made, can find them at Robert B. Andrews & Co.

THE CONCERT TO NIGHT.—Our readers will remember the Concert, to night, at Tucker Hall. We have no doubt it will be well worth going to hear. The performers and singers are good musicians, and the lady violinists will not be the least attractive feature of the entertainment.

The many friends and admirers of that sterling old patriot ex-Gov. Worth, will be glad to hear that his health is gradually improving. He is now able to sit up.

SENT TO JAIL.—Fab. Buffalo and Richard Smith were committed to jail yesterday in default of bail in bonds of $100 each on a charge of stealing a beef.

WE had a call yesterday from Mr. W. F. Beasley, the Agent for the patent process of manufacturing Sorghum Sugar, for North Carolina.

A NEW SCHOOL IN RALEIGH.—The Roman Catholic Church in this City is to be devoted to educational purposes on week days until another building shall be selected as a school room. The pastor, Rev. J. V. McNamara, has made arrangements with Miss Lucie G. Capron, an experienced and accomplished lady from Baltimore, who is already here for the purpose of teaching. Parents are informed that the school opens on to morrow morning at nine o'clock; and they are also made aware that Miss Capron will give lessons on the piano to all who may require her services.

They are raising funds for another steam fire engine in Wilmington.

REMARKABLY PROMPT.—Wm. A. Murphy, Esq., of McDowell, who was insured in the Brooklyn Life Insurance Company, for the sum of $2,000, died on the 21st ultimo. He only took out his Policy in July, and paid his premium but a few days before his death. We learn that, on yesterday, the General Agent of the Brooklyn in this city, Capt. A. W. Lawrence, forwarded to the widow of the deceased a check for the amount of the Policy. This within less than a month of the death of Mr. M. The facts in this case speak loudly, not only in favor of the benefits of Life Insurance, but of the admirable promptness of the Brooklyn.

SCHOOL CARD.—See the card of Mrs. Edward B. White, of New York. We clip the following from the Charleston *Courier*, in regard to this school:

A PUPIL'S OFFERING.—We cheerfully endorse and give place in our columns to the following grateful and highly deserved tribute to our former popular and distinguished townswoman, Mrs. Edward B. White, who is at present conducting a very flourishing seminary for young ladies in New York City. It is an extract from a letter recently written by a fair young friend of ours, who is now a bright pupil from our State in Mrs. White's school. After stating the eligible position which her preceptress had chosen for her academy and its many advantages, and having also dwelt on the general conduct and management of this institution of learning, she goes on to say:

And now, who is at the head of this thoroughly useful and elevated school? She is Mrs. Edward B. White, of Charleston, South Carolina. Colonel Edward B. White and his brother, Dr. Octavius White, both now living in New York, are natives of Charleston, where they lived until within a very few years past, and where their social position was always of the highest. Mrs. White being broken up in her old home by the fortunes of war, and having influential friends in New York, has come hither, and established the school of which I write. She is a lady of the most thorough education, a fine and experienced musician, an accomplished linguist; and, more than all this, a soft, gentle, pious, conscientious woman. I know that in the South now there is a deep prejudice against sending young persons to Northern schools. As regards this prejudice, I say nothing. But should there be those in our State who would like to send a daughter to New York to school, they would be wise to consider the claims of Mrs. White, of Charleston, No. 59 West, 42d Street.

NORTH CAROLINA SHOES.—Mr. J. A. Leach, of the Thomasville Shoe Factory, is in the city on business connected with his establishment. We are glad to learn that this North Carolina enterprise is succeeding admirably, and its business is continually increasing. A number of our Raleigh merchants keep shoes from the Thomasville factory, and sell a great many of them, and they give satisfaction both in quality and price.

Mr. Leach exhibited to us samples of men's double pegged brogans, men's balmorals, ladies' leather boots, ladies pebble grained morocco, and summer balmorals, of very superior workmanship and finish, and at prices that will compare favorably with Northern made shoes.

Thomasville has established a reputation in the Shoe business, and dealers should remember and encourage such commendable energy as her manufacturers exhibit.

HOME WORK.—We examined a Piano yesterday morning that, from being almost utterly worthless, and being ready to be thrown aside entirely, has been repaired, restrung, recushioned and renovated so thoroughly, by Mr. Wm. H. Vaughan, of this city, that it is now an excellent instrument, and for melody and tone equal to any piano of its class. Mr. V. is a natural as well as educated musician, and a pretty considerable of a mechanical genius.

There are many old pianos in the country, worn out and unused, which, if placed in his hands could be made to give forth good music, and that, too, at a comparatively small cost.

Mr. Vaughn continues to tune pianos for any one wishing it.

We often incur heavy expense by overlooking opportunities to save money, and send abroad for new and costly articles, when we might get as good and as cheap, and sometimes much cheaper, at home.

VAULT OF THE NEW BANK.—The vault of the new Banking House of John G. Williams & Co., for the "State National Bank," will be a very a cure place of deposit for coin, greenbacks and valuables of all descriptions. The floor is of solid granite laid on a solid brick foundation; there will be a double wall of granite, each twelve inches thick, with two inches space between, with iron balls countersunk into the granite blocks composing the wall, and left to play loosely, so that they cannot be sawed, and will thus prevent the blocks from sliding under any force. The top is to be finished off with solid granite slabs similar to those used for the floor.

The door, we learn, is to be constructed of iron, and will cost over five hundred dollars. The lock for the door will cost seven hundred and fifty dollars.

The stone work is erected under the Superintendence of Messrs. King and Whitelaw of this City, proprietors of the Raleigh Marble yard.

THIRTEEN SHOTS.—Thirteen shots, says the Wilmington *Star*, were fired, last Saturday, at Henry Berry Lowery, the negro leader of the Robeson County outlaws.—Two of the band, it says, were captured, and carried to Red Banks, thence, we believe, to Lumberton.

THE smoke-house of John Taylor, living near Moss Neck, New Hanover County, was robbed of a large quantity of meat and lard last week.

MORE DEVILTRY IN JONES.—We learn that information has been received in this city that a Col. Shepherd, of Jones county, had been shot and killed. We have not heard the particulars, but learn that a party has arrived to induce the Governor to offer a reward for the assassin.

MELANCHOLY DEATH.—Mr. James C. Dobbin, son of Hon. J. C. Dobbin, deceased, Secretary of the Navy under President Pierce, met his death in Fayetteville on the 13th inst., by falling from a window, by which his skull was fractured.

Two sailors were arrested in Wilmington, on Monday, for desertion from the British brig, Ida.

Two white men had a public fight in Wilmington on Sunday night, and were fined six dollars and sixty six and two-thirds cents each, by Judge Cantwell.

One hundred and forty-seven bolls have been counted on one stalk of cotton, on a farm near Newbern.

A negro was committed to jail in Newbern on Monday for stealing a gun.

RUBBING UP.—Three colored employees about the Capitol were employed yesterday in burnishing up the statue of Washington in Capitol Square. Whether bronze statues are improved by rubbing is a question we shall not argue.

THE FIRE ON SUNDAY NIGHT.—About one o'clock Sunday night, the alarm of fire was heard, when it was discovered that the large barn and stables of the Mansion House were on fire. The torch of the incendiary had been applied to the hay in the loft of the stable immediately over the stalls below. Everything was very dry and combustible, and of course, burned rapidly. The Omnibus horses, the Express horse, and others were in their stalls at the time. The large fine bay horse, belonging to the Express Company, and a good horse belonging to P. Fraley, colored, were burned,—the others were fortunately rescued. Some other stock and valuable property were destroyed which loss fell pretty heavily on our friends, Rowzee & White. The main building consumed was the property of Mr. John I. Shaver. The stables of Mr. Bain, standing near, were also burned. By great efforts, the Mansion House and the large frame building occupied by Dr. Howerton were saved. This, however, was mainly attributable to the stillness of the night—the absence of a stirring wind.

From the description given by those who first reached the scene of conflagration, there can be no doubt that it was ignited by the hand of an incendiary. In fact, a person, who is supposed to have done the work, was seen running from the stable but a few minutes before the flames burst forth.—*Salisbury Examiner.*

Baltimore Sun August 14th.

THE CASE OF JOHN H. PRATT.—On the 6th inst., John H. Pratt, an alleged ring-leader in the Jefferson (Texas) riots, was arrested and committed to jail in New York, by a detective from the headquarters of General Reynolds, who is said to have been on his track since April last. While in the custody of the United States marshal, a writ of habeas corpus was issued by Judge McCunn, of the State Court, to United States Commissioner Osborn who at first refused to give him up, whereupon Judge McCunn said he should direct the sheriff to enforce the writ and call upon the State military authorities for aid. An interview then ensued between Judge McCunn and United States District Attorney Pierrepont, which was followed by producing Pratt in the State Court on the 9th instant, whereupon Mr. Pierrepont asked that the prisoner be remanded to the custody of the United States marshal. This was objected to by his counsel, on the ground that the Federal authorities had no jurisdiction, but the judge granted the request. After the adjournment of this examination a squad of United States soldiers took the prisoner from the custody of Marshal Barlow, and hurried him to Fort Schuyler, where he was delivered into the charge of Major Taylor. This summary proceeding is believed to have been prompted by the apprehension that Judge McCunn would render a decision liberating the prisoner on the grounds above mentioned. On the next day the judge decided to discharge the prisoner from custody, on the grounds, first, that murder is not a United States offence, except in cases over which the government has exclusive jurisdiction; second, that the prisoner had not been committed by a United States Court. The prisoner, however, was still at Fort Schuyler, Marshal Barlow did not obey the order of the State judge and the Secretary of War directed the commandant of the fort to hold Pratt until further orders of the government. This was on the 12th instant, and the case had been set down for examination at 1 P. M. the same day, before Commissioner Osborn, but Marshal Barlow declined to produce the prisoner on the ground that he had been served with an order from Judge McCunn to bring him before the Superior Court.—He thought if the State court had the legal right to make this order, it would be his duty to submit to its *dicta*. If the State court was wrong in making it, it would be necessary to have a sufficient force in readiness to prevent Pratt from being taken from his custody when brought down for examination. It was certainly his duty to obey the order endorsed on the commissioner's warrant, but in view of the position in which he was placed he thought it his duty to take the course he had and submit his reasons. It was then determined to adjourn the examination to Monday next.—Simultaneously, with these proceedings, it appears that Judge McCunn was about to issue a writ against Major, Taylor and Col. Pratt, to bring them before him, on the application of N. A. Berge, when Assistant District Attorney Stanley appeared and said that if Judge McCunn would consent to a suspension until 2 P. M. yesterday the prisoner would be produced, when a compromise might be agreed upon to reconcile the differences between the State and government authorities. The United States commissioner is understood to have taken no part in this stipulation, as he holds that the prisoner is still under his jurisdiction, and that the State courts cannot interfere.

The proceedings of yesterday at first wore a serious look, if credit can be given to the reports by telegraph that the United States marshal had summoned a company of federal soldiers to his aid, and that a regiment of militia had been called upon to support Judge McCunn. Subsequent dispatches, however, state that Judge McCunn, in order to avoid an actual conflict of arms, adjourned further proceedings until Monday next to await the action of the United State commissioner. In the meantime the warrants on Marshal Barlow to surrender the prisoner to the State authorities have been signed but not issued. The federal soldiers occupying the United States court room and guard the person of the marshal. An armed truce may be said to exist.

In this position Judge McCunn is fully sustained by the highest legal authorities. The federal government has no jurisdiction of the crime of murder except in certain specified cases, viz:

"When committed on the high seas, or within any other fort, arsenal dock yard, magazine or in any other place or district of country under the sole and exclusive jurisdiction of the United States." Nothing appeared on the face of the commitment to show that the murder charged was committed "on the high seas, or within any fort, arsenal, dock yard, magazine, or in any other place or district of country under the sole and exclusive jurisdiction of the United States." But allowing to the federal courts every presumption of jurisdiction to which superior courts are entitled, it is still apparent that they have no jurisdiction of the crime charged against petitioner. The alleged murder was committed at Jeffersonville, in the State of Texas, and is an offence against the State of Texas, not against the United States. It is a crime of which the courts of Texas have exclusive jurisdiction. In the language of Mr. Justice Nelson, adjudicating the very point in the "Matter of James Egan," who was tried and convicted by the federal authorities for murder committed in South Carolina, and who for this, as well as other reasons, was discharged on habeas corpus. "It will be observed that the offence is one which, according to our constitutional system of government, is cognizable by the judicial authorities of the State, and not of the federal government." And, on the same ground, in the "Matter of Martin," (45 Barbour, 143) Mr. Justice Leonard discharged the petitioner on habeas corpus, holding that of the offence charged—arson in the city of New York—the federal government had no jurisdiction—a decision in which the United States authorities had decorously acquiesced.

The Pratt case presents, like others in which the same principle has been involved, a shameless commentary upon our boasted rival government, the right of trial by jury, and the comity established between the State for the rendition of parties accused of crime. All this arises out of the anomalous condition in which States, willing and anxious now for four or five years to fulfill their obligations to the Union and the constitution, have been put and kept in the interest of party. However guilty Pratt may be, it is better that one more should go unwhipt of justice than that the free institutions of a country should be mocked and outraged to secure his punishment. It is time that this broad mantle of martial law should be contracted instead of being expanded, as is attempted, from Texas to New York. And even in the "unreconstructed States," so-called, military tribunals have received an adroit lie in the disposition made of of the Yerger case in Mississippi, to await the decission of the United States Supreme Court before exercising authority, which is at war, with the most manifest and undisputed guaranty of freedom in the constitution.

P. S. The telegraph has announced the discharge of Col. Pratt by the United States Commissioner Osborn.

Special Notices.

"Fresh as a Maiden's Blush" is the pure peachy Complexion which follows the use of Hagan's Magnolia Balm. It is the True Secret of Beauty. Fashionable Ladies in Society understand this.

The Magnolia Balm changes the rustic Country Girl into a City Belle more rapidly than any other one thing.

Redness, Sunburn, Tan, Freckles, Blotches and all effects of the Summer Sun disappear where it is used, and a genial, cultivated, fresh expression is obtained which rivals the Bloom of Youth. Beauty is possible to all who will invest 75 cents at any respectable store and insist on getting the Magnolia Balm.

Koskoo!

THE GREAT REPUTATION

Which KOSKOO has attained in all parts of the Country

AS A GREAT AND GOOD MEDICINE,

has induced Dr. LAWRENCE to ENLARGE HIS LABORATORY and FACILITIES for MANUFACTURING, so as to be enabled to supply the extraordinary demand for it.

THE LARGE NUMBER OF TESTIMONIALS which are constantly being received from Physicians, and persons who HAVE BEEN CURED by its use, is CONCLUSIVE PROOF of its REMARKABLE VALUE.

As a BLOOD PURIFIER, it HAS NO EQUAL,

BEING POSITIVELY THE

Most Powerful Vegetable Alterative

YET DISCOVERED!

DISEASES OF THE BLOOD.

"The life of the flesh is in the Blood," is a Scriptural maxim that science proves to be true. The people talk of bad blood, as the cause of many diseases and like many popular opinions, this of bad blood is founded in truth. To any nothing of those humors that are hereditary, we can easily see how the Blood may become bad from imperfect Digestion or failure of excretion, and how this may influence the process of Nutrition, and thus influence all the functional activities of the body.

The symptoms of bad blood are usually quite plain—bad Digestion—balance imperfect nutrition, and consequently the circulation is feeble, the soft tissues lose their tone and elasticity, and the tongue becomes pale, broad, and frequently covered with a pasty, white coat. This condition soon shows itself in roughness of the skin, then in ERUPTIVE and ULCERATIVE diseases, and when long continued, results in serious lesions of the Brain, Liver, Lungs, or urinary apparatus. Much, very much, suffering is caused by impure blood. It is estimated by some that one-fifth of the human family are affected with scrofula in some form.

Persons suffering from any bad humor are very liable to have it settle on the Lungs or some other vital organ. The only safe rule is to remove the Blood poison at once, before it settles itself upon some vital point.

When the Blood is pure, you are not so liable to any disease. Many impurities of the Blood arise from impure diseases of large cities. Eradicate every impurity from the fountain of life, and good spirits, fair skin and vital strength will return to you.

KOSKOO!

AS A

LIVER INVIGORATOR!

STANDS UNRIVALLED.

Being the only KNOWN MEDICINE that EFFECTUALLY stimulates and CORRECTS the hepatic secretions and functional DERANGEMENTS of the LIVER, without debilitating the system. While it acts FREELY upon the Liver instead of forcing it, it gradually changes the discharges to a PERFECTLY NATURAL STATE.

SYMPTOMS OF LIVER COMPLAINT AND OF SOME OF THOSE DISEASES PRODUCED BY IT.

A sallow or yellow color of the skin, or yellowish-brown spots on the face and other parts of the body; dullness and drowsiness, sometimes headache; bitter or bad taste in the mouth, internal heat; in many cases a dry, teasing cough; unsteady appetite; sometimes sour stomach, with a raising of the food; a bloated or full feeling about the stomach and sides; aggravating pains in the sides, back, or breast, and about the shoulders; constipation of the bowels; piles, flatulence, coldness of the extremities, &c.

KOSKOO!

Is a remedy of WONDERFUL EFFICACY in the cure of diseases of the KIDNEYS and BLADDER. In these affections it is no near A SPECIFIC as any remedy can be. It does its work KINDLY, silently, and SURELY. The RELIEF which it affords is both CERTAIN and PERCEPTIBLE.

DISEASES OF THE KIDNEYS AND BLADDER.

Persons unacquainted with the structure and functions of the Kidneys cannot estimate the IMPORTANCE of their healthy action.

Regular and sufficient action of the Kidneys is as important, nay, even more so, than regularity of the bowels. The Kidneys remove from the Blood those effete matters which, if permitted to remain, would speedily destroy life. A total suppression of the urinary discharges will on occasion death from thirty-six to forty-eight hours.

When the Urine is voided in small quantities at the time, or when there is a disposition to Urinate more frequently than natural, or when the Urine is high colored or scalding with weakness in the small of the back, it should not be trifled with or delayed, but Koskoo should be taken at once to remedy the difficulty, before a lesion of the organs takes place. Most of the diseases of the Bladder originate from those of the Kidneys, the urine being imperfectly secreted in kidneys, prove irritating to the Bladder and Urinary passages. When we recollect that medicines never reaches the Kidneys except through the general circulation of the Blood, we see how necessary it is to keep the Fountain of Life Pure.

KOSKOO!

MEETS WITH GREAT SUCCESS IN THE CURE OF

Diseases of the Nervous System.

Almost nine-tenths of our people suffer from nervous exhaustion, and are, therefore, liable to its concomitant evils of mental depression, confused ideas, loathing of the brain, insanity, and complete breaking down of the general health. Thousands are suffering to-day with broken-down nervous systems and, unfortunately, tobacco, alcohol, late hours, over-work, (mental and physical) are causing diseases of the nervous system to increase at a fearful ratio.

The symptoms to which diseases of the nervous system give rise, may be stated as follows: A dull, heavy feeling in the head, sometimes more or less severe pain or headache; Forehead headache, Dizziness, Noises or ringing in the Head; Confusion of Ideas; Temporary Loss of Memory; Dejection of Spirits; Starting during Sleep; Bad Dreams; Hesitation in answering questions; Dulness of Hearing; Twitching of the Face and Arms, &c., which, if not promptly treated, lead to Paralysis, Delirium, Insanity, Impotency, Apoplexy, &c., &c.

CONCLUSION.

Suffering reader, do not think that because you have tried other remedies, you cannot be cured, but recollect that God in His Providence, has no afflicted His children with pain and disease, without at the same time giving them something in the Great Garden of Nature that will cure them.

Have no hesitation in writing to me, and stating your case in full, and I will answer you promptly.

THE UNFINISHED PRAYER

"Now I lay" — say it, darling;
"Lay me," — repeat the tiny lips
Of my daughter, kneeling, bending,
O'er her folded finger tips,

"Down to sleep" — "To sleep" she murmured,
And the curly head dropped low;
"I pray the Lord" — I gently added,
"You can say it all, I know."

"Pray the Lord" — the words came faintly,
Fainter still — "My soul to k-ep;
Then the tired head fairly nodded,
And the child was fast asleep.

But the dewy eyes half opened,
When I clasped her to my breast
And the dear voice softly whispered,
"Mamma, God knows all the rest."

O, the trusting, sweet confiding
Of the child heart! Would that I
Thus might trust my Heavenly Father,
He who hears my feeblest cry.

SION H. ROGERS,
JAMES H. FOOTE,
L. C. LATHAM,
Supervisors.

The Age of Progress.

We publish to-day, the first scheme in the sale of Real and Personal Estate—a Company chartered by the last Legislature, with a capital of one hundred and thirty thousand dollars, and with power to increase that amount to five hundred thousand dollars. An examination of the charter satisfies us that the Company is pursuing a legitimate business; they are empowered to "dispose of Real and Personal Estate in any mode or forms they may deem best," and "all laws, or clauses of laws, coming in conflict with said charter are hereby repealed." This is plain and unmistakable English, and we have no doubt the transactions of the Company will prove beneficial to the property holders of North Carolina. For example: Mr. A. owns a piece of real estate which he wishes to dispose of. He throws it upon the market, and fails to get a bid that would warrant him in making a deed. He then places it in the hands of the North Carolina Real and Personal Estate Agency, at a fair valuation, and the property is sold by chance—the owner gets his price—the Company a fair and reasonable compensation for selling—and some poor man, for two dollars comes in possession of a homestead, which, under any other circumstances, he would not have owned.

In fact, we do not view the Company as a Lottery—it is what it purports to be, a simple Agency for the sale of property, for its true value, which, otherwise would be sacrificed.

We refer our readers to the advertisement—the splendid real estate offered, and the other rich prizes, amounting in all to THREE THOUSAND AND ONE—and the reader will perceive, by the simple rule of division, that there is one prize to every twenty-four tickets.

The General Agent of the Company has given us a call, and assures us, that the success of the Company is no longer a problem. In thirty-five counties through which he has just traveled, he represents the people as being enthusiastic in favor of it—both as to investing, and the placing of property in the hands of the Company for sale. He represents teat already, before the first grand drawing has taken place, applications to sell, amounting to half a million dollars, are on file in the Secretary's office.

We learn from the Raleigh papers, that the exhibitory drawing which took place in the city of Raleigh, on Saturday last, passed off to the decided satisfaction of a large audience assembled in Tucker Hall to witness it.—*Wil. Post.*

One three cent stamp must accompany every order. All tickets will have the seal of the Company and signature of the Secretary.

☞ We refer to any Merchant, Banker or other gentleman of standing in the city of Raleigh.
